

## TDC Reopening Procedure

### Studio Class/Drop off/Pick up Policy:

- Only dancers will be allowed in the studio at this time. All dancers will enter through the front doors and be temperature checked. (No temperature above 99 degrees will be admitted) Dancers will then wash hands and put bags away. All dancers will have a designated space for their things. From there, dancers will stay as separated as possible.
- We have purchased an industrial disinfectant fogging machine as well as UVC lights. The lights will be used while the studio is closed as to not expose our students or staff to an abundance of UV rays. The fogging machine will be used daily after classes are done. Teachers will be disinfecting between every new group of students/classes everyday.
- At this time, our water fountain will not be allowed to be used without a cup. Dancers will be required to bring their own resealable water bottles.
- When classes are over parents will pull around to the back of the building, carpool style. We ask that you please have your dancers first and last name printed and placed on your drivers side window.
- Once all dancers are dismissed, the studio will be disinfected, and the next class will begin coming into the studio.

### Class Sizes and Student Rotations:

- Once students are placed into their classes and true class sizes are determined, we will make decisions on how classes will run from that point.
- Our first option is that dancers will be classified as group A or group B. Every other week dancers will attend in person and every other week dancers will have videos sent to them from their classes to work on at home.
- We will have new class pages created on Facebook so that questions can be asked and videos can be posted for help and critiques.
- Our 2<sup>nd</sup> option will be that our class sizes will be small enough to hold that particular class in person weekly.
